MY PORTFOLIO

Summary:

As an individual, I am a **detail-oriented, team player**, and a **proactive problem solver** who has **strong communication** and interpersonal skills. I have a **proven aptitude to understand and ace in new and so termed difficult subjects**, technologies and skills very quickly. And now, **all I want is an opportunity, a chance** to join a team wherein I could learn immensely by applying my learnings in the real world scenario.

Education:

Indira Gandhi National Open University - Regional Centre: Ahmedabad, GJ Jan 2022 – Current
Post Graduate Diploma in Computer Applications (Distance course)

Uttarakhand Technical University, Dehradun, UK 2020
B.Tech in Mechanical Engineering

Gujarat Refinery School, Vadodara, GJ - Affiliated to Gujarat Board
Class 12 2014
Subjects: **Computer science**, English, Physics, Chemistry, Mathematics
Class 10 2012
Subjects: **Computer science** and other common subjects

Technical Skills:

Basic computing	- Touch typing (65 - 70 WPM), MS office, G-suite, Outlook etc.
Operating Systems	- Windows, Linux, Chrome
Source control/Version control	- Git, Github
Programming languages	- HTML, CSS, Javascript, jQuery
Frameworks/libraries	- React, Ant Design, Tailwind CSS, Basics of Node & Express
Data Analysis/BI tools	- Advance Excel, Tableau (basics-intermediate)
Database systems	- MySQL, MongoDB
Orchestrations tools (basic theory)	- Dockers

Projects:

A tech website - React, AntDesign, Javascript - In progress

- I'm currently in the process of making a tech website
- The website will be a **fully responsive** one and I'm making use of **React with AntDesign** for this project

Facebook signup page clone - Tailwind CSS

- In progress

- I'm trying to **clone the facebook signup page** as it is, and for that I am using **Tailwind CSS**

Restaurant landing page/website - React

- In progress

- I'm making a **fully responsive** restaurant landing page.
- I'm making use of **React's reusable components** functionality in this project.

My portfolio - HTML, CSS, Canva

- Completed

- I have made my portfolio website that displays my projects, abilities and strong interest in web development.
- Because I don't have many projects at present and I haven't added the about section yet, that's why it doesn't look awesome as of now but I'll keep on making more projects and will update it in nearly every 2-3 days.
- I got a random design from the HTMLup website, modified it as per my need, added my details, pictures etc... and got it ready.
- I also used **Canva** (free version) to make a welcome picture that I've used in my portfolio and also in the blurry loading image project
- **Please check out my portfolio website by clicking on the link provided on the top of my resume**

Workout music player - Javascript, HTML, CSS

- Completed

- It's a **music app** which has 3 preloaded workout songs.
- The app is with **play and pause functionality**.
- User can also **switch songs and a progress bar** is also visible when the song is being played
- I've **deployed the project using Github pages** and **I've added it in my portfolio** for your kind reference.

Blurry loading image - Javascript, HTML, Canva

- In Progress

- I made a welcome picture with the help of Canva and I've used the same picture in my portfolio as well.
- Then I used the picture in this project which displays the picture with a blurry loading effect.
- I've **deployed the project using Github pages** and **I've added it in my portfolio** for your kind reference.

Basic counter app - Javascript, HTML

- Completed

- A full fledged **counter app**.
- The app is able to increment the count by initialising the count from 0 and can store the count for later reference.
- I've **deployed the project using Github pages** and **I've added it in my portfolio** for your kind reference.
